LIVER DIDN'T ACT DIGESTION WAS BAD

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadowville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak...

I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon, righted with a few

Dr. J. A. Phelps of Hickman, Kentucky, joined his wife here a few days ago for a visit to Mr. and Mrs. Ned Boswell at the latter's home. Mrs. Phelps has been here some days before being joined by her husband here.

FOR SALE—Wanamaker cotton seed for planting. Pure and sound. Better staple and commands better price than other short cotton. Price \$10 per 100 pounds. S. B. Reams, Somerville Tenn. 3-26

R B. Young last week sold his 440 acre farm in the fourth district to Frank Sanders who last fall sold out his interests in the eighth district and moved to the B. F. Murrell home place just west of town. The price paid is said to have been a little less than \$65 per acre. The farm is to remain in control of Mr. Young until the first of the coming year, according to information at hand.

Rub-My-Tism is a great pain killer. It relieves pain and soreness caused by Rheumatism, Neuralgia, Sprains, etc.

Just another week until the regular March term of the Circuit Court for this county will convene. Reports coming from Covington state that Judge R. B. Baptist is quite sick with pneumonia and it is feared he will not be able to be here, under which circumstances another will be selected to preside for this term of the court. From the office of the clerk, S. A. Wetzler, it is learned that the docket awaiting this term is unusually light, with few important cases and that it will likely be disposed of quickly.

In another place in these columns this week the several houses owned by Mrs. Ned Boswell are being advertised for sale, as are also her household goods. It is learned b The Falcon that owing to the failing health of both Mr. and Mrs. Boswell they have decided to sell their holdings here and move to Hickman, Kentucky, where they will be with Mrs. Boswell's sister, Mrs. Phelps, and Dr. Phelps. Mr. and Mrs. Boswell's friends here and thruout the county will learn of this move with regret. They have lived in Somerville many years, since he was sheriff for six years of Fayette county. Mrs. Boswell has not been well for some time and Mr. Boswell has been in feeble health for several years, growing somewhat worse the past few months. It is hoped both will find improvement after they become settled in their new home.

Such scarcity of whippoorwill peas, and other varieties too as for that matter in this section was never so marked as that present time. It is another reminder of the rainy weather of last fall. The pea crop of this section, was said to be larger than usual but the rains prevented picking them and they rotted in the field by hundreds of bushels and there are but few in the country now for planting another crop. They are quoted by seedsmen at \$5.50 to \$6 per bushel and scarce, other sections of the south having suffered just as did this section. With this scarcity and high prices of seed the planting this year will be necessarily short of the average.

Miss Frances Crawford on last Friday night entertained her little friends with a birthday party at the home of her parents, Dr. and Mrs. J. K. Crawford, it being her tenth birthday. The little folks had a most jolly time which was shared in full by the little hostess, who received numerous presents from her guests.

I have a litter of ten Duroc pigs farowed January 15, three females, seven males, for sale at \$15 each at weaning time. They will be just right for pig club boys and girls. At the price quoted I will register them in the name of purchaser and there is no futher cost for papers. These are sired by my Taxpayer male and out of a 350 pound Defender sow, as good combination as can be found in Duroc breeding. Ready for weaning and delivery to Club members about March 15. W. T. Loggins, Somerville, Tenn. 3 15

Monday of this week the fire alarm was given here and the volunteer fighters flocked to the resident of Mr. and Mrs. C. L. Moore in the southern part of town which had caught fire in the attic over the kitchen. The fighters got to the roof of the building and cut loose the roof of the kitchen from the other roof and turned it off, thus removing the burning part of the roof and saving the other part of the building. The roof of the kitchen was a complete loss, the parts of the house away from the kitchen suffering no damage, tho it looked like at one time that the building could not be saved.

It was announced in Wednesday's Commercial Appeal that J. F. Houston, of Fisherville, and Forrest Farley have bought the mercantile business of W. G. Allen of Cordova, one the largest of its kind in this section of the country. The new firm is to be Houston & Farley. The former is a big merchant and business man at Fisherville, operating a business of the same kind, and Forrest Farley is the youngest son of Mrs. Annie Farley of Somerville and has been in charge of the office work for Mr. Houston for a number of years. Many friends in this community will be glad to see the prosperity and growth in business that has followed this one, of her worthy young men.

More and more reports of outbreaks of hog cholera in different parts of the county are coming to the attention of hog raisers and it is time for every one who would avoid loss from this source to get busy with vaccination. The United States specialists have never been able to find a remedy to prevent or cure hog cholera except the double process of inoculation, and with the thousands of hogs that have been inoculated in this county in the past few years there have been practically no losses, none unless the hog was sick at the time of vaccination, and many of those sick when vaccinated got well. A widespread epidemic of cholera now would work thousands of dollars of loss to this section, unless inoculation is used in the herds hereabout.
